Översikt

Viktigaste egenskaperna

Miller Automatic Self Descenders (EUR)

Rescue descender device complies with the new EN341/2008 standard, EN 1496. Ideal for rescue situations from wind turbines, antennae, high voltages masts, cranes and any areas normally inaccessible by conventional means.

Increase ease-of-use : descent is quick (1m/s) and smooth who reduces vibrations.

Greater cost savings : recertification by factory or Miller Service Point is required only after seven years.

8000m descent for 100kg (16 x 500m), maximum descent height of 500m, use in an emergency by 2 people weighing up to 250 kg.

Risker

- Fall från höga höjder

Föreskrifter

- Conforms to EN341/2008 - EN1496
